

What you need to know about **ACTIVE STATUS** and your **EARNED DISCOUNT PRIVILEGE**

Retail:

What the customer pays

Wholesale:

What the consultant pays

Active Status

When you place an order of \$225+ wholesale (\$450 retail) you are considered active during the month, which earns you the *Discount Privilege*. The *Discount Privilege* allows you to place as many single size orders you desire in the 2 months following the month you placed an active order. If you order an accumulative of \$225 in a month that you are considered active, that month would then be considered your 1st Active month and you would have 2 more months of active status.

If you fall in inactive status, you will need to place a single \$225 wholesale order to achieve Active status again and your Earned Discount Privilege.

Earned Discount Privilege

You earn the *Discount Privilege*, which is a 50% discount on the retail amount of Section 1 products, when you place a single \$225 whsl order of Section 1 products (\$450 retail). You continue receiving the Discount Privilege the following 2 months.
