UNIQUE SELLING PROPOSITION:**Help protect skin and fade visible fine lines.**

When it comes to being a barrier, skin must work a lot harder during the day. Pollution, UV rays, cold weather and more bombard skin, can damage it, and wear down its natural defenses. Broad spectrum SPF of 30 or more has long been a skin care staple, recognized by scientists for helping to prevent premature skin aging. But scientists also recognize skin's moisture barrier as essential to skin health and a critical component of its natural protection. The moisture barrier helps keep the good things in (like moisture) and the bad things out (like pollutants). When the barrier is compromised, which is often the result of environmental factors, it can lead to skin dryness and dullness.

TimeWise[®] Daytime Defender Sunscreen Broad Spectrum SPF 30[†] includes prickly pear extract to help strengthen* skin's moisture barrier, critical for helping keep good things in your skin and bad things out. When used with *TimeWise*[®] Antioxidant Moisturizer, it provides one of two infusions of the *TimeWise 3D*[®] Complex to protect skin. This daily skin care essential helps skin appear more vibrant throughout the day as it improves the look of uneven tone. The quick-absorbing formula reduces the look of fine lines and improves skin's overall appearance, leaving it noticeably revitalized. Skin looks healthier and feels more resilient. Suitable for all skin types.
